A motivated and adaptable Master of Information Technology (Software Engineering) student at Charles Darwin University with a strong interest in Business Analysis. Skilled in problem-solving, requirements understanding, documentation, communication, and working collaboratively with diverse stakeholders. Experienced in customer service, education, and IT environments, with the ability to understand user needs and communicate information clearly. Currently developing practical skills in business process analysis, SQL, Excel, Power BI, Jira, and Confluence. Eager to contribute to business improvement and technology projects as a Graduate or Junior Business Analyst.

WORK EXPERIENCE

Security Officer | MSA Security, NT | Jan. 2026 - Present

- Provided professional front-line assistance to visitors, staff, and members of the public while maintaining a safe and supportive environment.
